# Keep Calm: Spring is Around the Corner!

The snow has started melting in some places and in others folks are enjoying clear, sunny days. Spring is almost here!

If you're a nature lover, it's time to start preparing your garden. Nothing says "spring" like colorful foliage and fresh vegetables. Did you know that there is a "right" time to start preparing? Getting your soil ready and deciding when you'll do your planting are the most important steps to a successful spring garden.

We put together some tips to help you get started!

When You Should Start Preparing  
Your Spring Garden

NOTICE OF ANNUAL MEETING
